Small Animal
Additional Journal Article List 2015

This list contains articles 3-10 years old from core journals and articles within the last 10 years from non-core journals and is designed to bridge a perceived gap in the recommended reading between recent journal articles, non-core journals and textbooks. It contains article the committee deems likely to inform and impact the practice of veterinary ECC. We aim to keep this list to <100 articles and will review and update it annually. Multiple articles have been removed from this list compared to the 2014 version. This is not because the committee no longer feels these are important, but rather because the recently published second edition of Silverstein DC & Hopper K, Small Animal Critical Care Medicine 2015 has incorporated many of these articles into its citations.

Please also be aware that while the majority of the questions on the examination will be based on literature from the additional article list and the recommended reading list some questions may reference other appropriate sources pertinent to our specialty.

ACID-BASE, FLUIDS, & ELECTROLYTES

ANESTHESIA/ANALGESIA

CARDIOVASCULAR
COAGULATION/TRANSFUSION MEDICINE

ENDOCRINE

ENVIRONMENTAL/TOXIC

GASTROINTESTINAL/EXOCRINE PANCREAS
