Library Discovery Overview

Description
Welcome Bridge Scholars! You will be meeting with Morgan Library librarians once a week as a part of your program. During this time, we will introduce you to research strategies that will help you in your college career. These skills will help you think critically about information, both in your classes and beyond.

Goals
- Explore library spaces
- Understand the research process
- Learn to use a variety of resources, including academic
- Evaluate and think critically about information
- Share new findings and understandings with peers and community

Research Guide
Library Discovery material will be posted in the research guide at https://libguides.colostate.edu/bridge. Refer to this resource for electronic copies of all materials.

Workbook
You will receive a binder where you will keep weekly handouts. You are expected to bring the binder to class every week.

Book Cover Project
In our time together, we’ll discuss student success and reflect on what students at CSU need in order to succeed. To demonstrate what you’ve learned about success, you’ll create a collage book cover that communicates what you personally need or will need in order to feel successful in your life, in college, or in your future career. Your collage book cover will be printed on the library’s large-format printer. The library will cover the cost of printing. You’ll share your creation with your peers and family at the Bridge Closing Event on Wednesday, August 7.

Printing Credit
To support your academic work, you will receive $20.00 of printing credit available in your PaperCut account. Details about how to use this credit will be discussed during the course of the program.
